Child Development with a Difference

The mission of Saint Mark CDC is to assist families in the nurturing and growth of their children: physically, intellectually, and socially, in a safe and welcoming Christian environment.

To check for spot availability and registration info, please call 864-882-0333 or email cdcdirector@smumcsc.org

Call for details about our summer programming.

The Saint Mark Difference

Saint Mark provides care for children ages 6 weeks to 5 years old, as well as after school and summer programs for 4K-5th graders. All classrooms follow a year round curriculum based on ages and developmental needs of the children. All lessons are themed-based and hands-on to provide opportunities to make independent choices.

As a privately run center we pride ourselves in the ability to provide lower teacher-to-child ratios than required, relationship-oriented classrooms, and a curriculum with developmentally appropriate activities and expectations. We look at each child as an individual, and with parental input and daily interactions in the classroom, we do our very best to meet their academic, social, and developmental needs on a daily basis.

Your child will become a member of our family here at Saint Mark CDC, and we look forward to using each day spent with us as an opportunity to add another priceless memory to their childhood.

"I am so thankful for the love and excitement for learning that has been poured into my children by the Saint Mark's CDC staff. My 10 year old son came to summercare and loved it, and my daughter has been here for the last year and a half. When we first moved here, the pediatrician was concerned with her speech. She started at Saint Mark, and her speech improved dramatically and we never had to use our referral to speech therapy. Every one of the teachers has been amazing, and I know that my children are safe, loved, and encouraged in their educational journey. I cannot recommend them enough!"
